

Greeting Comrades, we are in a momentous time in the history of our glorious revolution. The capitalist pigs have left the world ripe to receive the salvation of our revolution. Now is the time to allow the developing world to fully develop by freeing them from the shackles of capitalism, and assisting the proletariat in establishing a communist paradise of their own.

We need to think strategically, comrades. We must allow the world to receive our system but we must perfect our focus. I urge you to research countries in which we have good relations with. Try to think of strategies to further our revolution with the help of our friends. Also, determine which countries that we do not have relations with who might be more receptive to our message of communism. Lastly, decide which countries are friendly to the capitalist. Create plans to either convert them to the idea of a worker's paradise, or devise schemes to bring down their unjust systems.

After each of you create your list and strategy corresponding to friends, enemies, and potential converts, we need to decide where to focus our resources. Here are some things to keep in mind. We have five options regarding the spread of our revolution. These options include Latin America, Africa, the Middle East, Asia, and Europe. I will review important events which transpired in these areas and then discuss potential future concerns.

The United States has dominated Latin America ever since the imposition of the Monroe Doctrine. In 1973 our comrade in arms Salvador Allende was unjustly removed from power by the capitalist puppet Pinochet. The right wing forces also feel embolden by their removal of Isabel Martinez in Argentina. We to actively search out allies which can further our revolution in this fertile region. I feel like we have not given enough attention to Central America. Remember to utilize Cuba as it represents our only beachhead in Latin America.

Africa has seen a great amount of instability over the past decade. The Safari Club (Iran, Egypt, Saudi Arabia, Morocco, France, and the United States) have been intervening heavily in the region. Undeterred by their detestable history with regards to colonialism in Africa, these capitalist friendly forces plan to further enslave the workers of Africa. The Safari Club defeated our allies in Zaire and Ethiopia with the help of capitalist backed Somali forces. Currently our comrades are fighting intensely in Angola. We need to monitor this conflict and ensure the continued spread of communism.

The Middle East also represents a great candidate for communist expansion. Many of these countries are ruled by monarchs beholden to capitalist interest. I have a feeling some of these monarchs are destined to fall quickly. We need to remember to engage with the pro-communist forces who removed the capitalist pig ruling in Afghanistan. We may be able to work with these brave men and women to further communist interest in the Middle East.

The region of Asia may be set to explode. We are witnessing the splintering of pro-communist forces in Cambodia, Vietnam, and China. We need to maintain unity among our brothers and ensure that no comrade spills another comrade's blood. Decide how you want to handle this delicate situation.

President Carter appears willing to negotiate a new nuclear arms treaty. My opinion is torn on this issue; I do not trust the Carter administration. They need to prove their trustworthiness to us, but decreasing

the tension between us and the Americans may assist us in our mission to spread our glorious system. I am willing to give negotiation a chance, but negotiations will never halt the expansion of our glorious revolution.

To summarize, create three lists of countries for each of the five regions. The list should include friendly states, unfriendly states, and potential converts. For each country on your three list think of potential strategies we can use to further the spread of communism. Good luck comrades and I am looking forward to seeing you soon.

Comrade Brezhnev
